Spices Smokehouse Crackers

I never dreamed in 2003 when a friend shared this crazy spiced up cracker with me that it would turn into a business.

After being introduced to this snack by a friend from Louisiana Robert and I fell in love with them. So I called my friend and ask for her recipe, she was happy to share. Of course I had to put my twist on it with our BBQ rubs and my BBQ family was the perfect avenue for me to test flavor profiles on the crackers. I tweaked it for a long time before I hit the perfect mark! We loved them so much that I would make them whenever we went to parties and BBQ contest to snack on. Before long I was being ask by others to make them a jug. Surprisingly the calls kept coming, Robert said "you just need to sell those things because everybody loves them".

I saw my friend later and gave her a jug. With a smile she said "I like yours better". I shared my desire to sell them and she got excited giving me her blessings. She is no longer with us but I know in heaven she is looking down with a smile on what she started.

As a caterer I had the facility and proper permits in place so it was easy to start selling them online, locally and at BBQ contest. After years of being on the back burner I took another look at its potential as a "real business" and I knew I couldn't sit still with this snack that everybody loves, I needed to see where it would lead.

In 2015 Spices Smokehouse,LLC was granted FDA permits to sell for mass distribution. Spices Smokehouse Crackers now have retail locations all across Alabama, Tennessee, Arkansas, Florida, Mississippi And Minnesota. With 2 new Sales Reps the growth is promising. We are aggressively looking for new distributors nationally.

The Smokehouse Market

In April of 2017 we opened The Smokehouse Market offering our smoked meats, chicken salads, homemade pimento cheese, fresh fried pork skins and other seasonal items. We also decided to bring in outher Alabama Made products and being in the BBQ World it was natural to offer some of the best rubs and sauces you can buy. We hope our love of BBQ and cooking great food will inspire others to become BBQ Rock Stars in their own back yard.
